

Baby changing station vertical white

Do you want to offer parents with young children comfort and convenience? Then a baby changing table in your sanitary room is the solution!

In addition to the convenience that a baby changing table offers, the baby changing table is also safe and hygienic. The baby changing table is made of bacteria resistant plastic and is equipped with Biocote[®] protection. The changing table is supplied with a lockable dispenser for changing liners and is equipped with a nylon safety belt. The table is equipped with convenient hooks for personal belongings, which is so easy for the parents. Make the best possible convenience with an icon indicating that a baby changing table is present.

Do you want to make your visitors happy with young...
