

Waste bin 56 litre closed

Product sheet

Research has shown that people are more likely to throw away their rubbish when they are in a clean environment. To keep your (toilet) area clean, we have this waste bin for you.

Boasting a capacity of 56 litres, this waste bin can handle large numbers of visitors.

A perfect waste bin for large public spaces or in restrooms under a hand towel dispenser. Thanks to the additional anti-fingerprint coating on the stainless steel exterior, dirt or drops of water will barely be visible and not adhere to the surface, making the bin easy to clean.
